An old-timey title card is shown, reading: "F.O.X. UPDATE (Federation of Outstanding Explorers). A 1930's-esque narration begins over animated images depicting the events and people described.

NARRATOR

Attention all Federation of Outstanding Explorers members. Thanks to a small group of highly capable explorers, Professor Arthur Fact has been found- alive and well! They return to F.O.X. Headquarters this week, with a number of historic relics and groundbreaking discoveries. Professor Fact and his team of rescuers will be accepting an award for bravery, as well as recognition in the field of archaeology, next month. We expect all F.O.X. members to attend and help us celebrate this glorious day in science, history, and discovery. In related news, Claus Von Ferbodenstein has been exposed in his attempt to sabotage Professor Fact, leave him for dead, and collect the sacred relics to be sold on the black market. He is currently facing charges in a court of law and, regardless of the trial's outcome, has been permanently expelled from F.O.X. This has been an Update Report of the Federation of Outstanding Explorers.
